HACINT

HACINT INTELLIGENCE TECHNOLOGY CO., LTD

ABOUT US

With the mission of intelligent manufacturing, Hacint Intelligence Technology Co., Ltd. has been committed to becoming the trusted systematic solutions supplier for intelligent manufacturing since establishment in 1994. Hacint implements 3+2+X product strategy: wire harness equipment series, crimping applicator series, wire harness test series, intelligent software series, intelligent equipment series and intelligent logistics series, etc. These products are widely used in the automotive industry, information and communication, photovoltaic energy storage, home appliances and other fields.

- Company Vision: To be a trusted supplier of intelligent manufacturing system solutions for customers
- Company Mission: Make smart manufacturing within reach
- Business Concept: To forge harmonious and win-win products with sincerity
- R&D Philosophy: Focus on customer and foster new products
- Quality Policy: Excellence, exceeding your expectations
- Service Concept: Sincere, thoughtful, efficient, and professional.

INTELLIGENT LOGISTICS SERIES

Intelligent Logistics System Integration Solution for Wire Harness Factory

Intelligent Logistics Division of Hacint focuses on providing integrated solutions for the intelligent logistics systems of wire harness factories. It deeply integrates core equipment such as AS/RS, AMR, automated storage cabinets, picking workstations, and conveying equipment to build an intelligent logistics system covering the entire process. Relying on the overall scheduling and management of information systems such as WMS, WCS, and RCS, it achieves unmanned and precise material delivery. By empowering wiring harness factories with intelligent logistics, it enhances the core competitiveness of enterprises and helps the industry to transform and upgrade towards intelligence.
